

HIMANSHU KUMAR

DEVELOPER RELATIONS / DEVELOPER ADVOCACY / AI & DEVELOPER TOOLS

Lucknow, India | jhahimanshu653@gmail.com | github.com/himanshu748 | linkedin.com/in/himanshu748
dev.to/himanshu_748 | x.com/jhahimanshu653

PROFILE

Developer Relations-focused engineer and technical storyteller turning complex APIs into approachable tutorials, reproducible demos and clear documentation. Published 34 posts on DEV Community with 8,800+ followers; co-organized HackBLR for 1,500+ participants. Built award-winning projects spanning AI agents, voice interfaces, observability and developer tooling.

DEVELOPER EDUCATION & COMMUNITY

Independent Developer Educator & OSS Contributor | Developer Community 2025 - Present

- Published hands-on DEV articles covering MCP, AI agents, Python, voice AI, OpenTelemetry and testing, pairing explanations with code, setup guides and limitations.
- Open-sourced runnable demos, SDK-style examples and documentation for otel-swarm and agent tools; contributed through GitHub and GitLab.

Community Co-organizer | Geek Room / HackBLR 2026

- Co-organized HackBLR (551 registered teams, 1,500+ participants); supported developer engagement and builder coordination; mentored at Hack-e-Awadh.

Freelance Developer Content & DX Research | Voxgig Oct 2026

- Delivered SDK feedback, issue reports and a technical Tabnas review with code examples, emphasizing documentation clarity and usability.

ENGINEERING EXPERIENCE

Software Engineering Intern | Temflo System Pvt. Ltd. Jun - Aug 2026

- Built FastAPI / SQL Server services for dam telemetry and reporting, including Windows service deployment and troubleshooting.
- Developed MySQL / MQTT backend for a remote siren network of ~35 Raspberry Pi devices, with role-based access, audit logs and exports.

SELECTED PROJECTS & TECHNICAL STORYTELLING

FinEd Saathi | 1st place, Murf AI #VoiceForBharat

Built a multilingual voice-based finance tutor using Murf Falcon 2, LiveKit, Deepgram and Gemini; published a build story, setup and safety tests.

otel-swarm | Open-source SDK + technical guide

Created an OpenTelemetry toolkit with SigNoz dashboards, alerts and a runnable four-agent tracing example; published tracing guidance on DEV.

Flatpack | 2nd prize, Livepeer Agent Hackathon

Solo-built a tool turning how-to videos into printable step-by-step guides using extracted frames and structured instructions.

ScrapeSentry | Best UI, WeMakeDevs Into the Scrape-Verse

Built a developer-facing interface for scraper monitoring, drift detection, quarantines and human-reviewed recovery.

OTHER RECOGNITION

Hugging Face Build Small: Tiny Titan Award (Thousand-Token Theater) | AMD AI DevMaster 2026: 3 Excellent Project Awards

EDUCATION & SKILLS

B.Tech, Computer Science & Engineering | Khwaja Moinuddin Chishti Language University, Lucknow | Expected 2027

Developer Relations: Technical writing, developer docs, API demos, open source, workshops, community engagement, mentoring, DX feedback.

Technical: Python, FastAPI, JavaScript / TypeScript, MCP, LLM agents, LiveKit, Git, Docker, SQL, AWS, OpenTelemetry, SigNoz.
